Dear Mr. Magenis,

RE: Your letter dated 04/27/21.

It may be of assistance to you to note that the video evidence of this encounter, included as "Exhibit A" to the Second Amended Complaint (ECF 45), has a "last modified" date and time of Saturday, November 30, 2013, 12:11:20 PM associated with it, suggesting that the video recording ceased precisely at 12:11:20 PM on Saturday, November 30, 2013. The encounter in question should therefore have taken place from approximately 11:15am – 12:15pm on Saturday, November 30 2013.

Additionally, the file name as pulled directly from my phone's flash card has a file name of "video-2013-11-30-13-09-44", additionally confirming this stop took place on November 30 2013. The "13-09-44" *may be a time-stamp*, and if reduced to time it indicates 1:09:44pm.

My recollection of this encounter is that it did take place during the late morning of November 30 2013 and the video file (Exhibit A) suggests that you should be looking in the 11:00am – 1:30pm window of time, as described above.

I hope you find the above information useful;

Best Regards,

/s/ Glen Plourde
